

# SAFETY DATA SHEET

---

## SECTION 1 – IDENTIFICATION

---

### 1.1 Product Identifier

Product number and name      **99062 VULTURE CREEK CLINO, 2-6mm**  
Product type                      Natural molecular sieve

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses      Filtration, ion exchange  
Uses advised against          No specific uses advised against.  
    Avoid eye contact and/or inhalation.

### 1.3 Details of Supplier of Safety Data Sheet

Processed by	Pratley Perlite Mining Company (Proprietary) Ltd 14 Jackson Street, Fectoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 www.pratleyminerals.com
Supplied in South Africa by	Pratley (Proprietary) Ltd 14 Jackson Street, Fectoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 sales@pratley.com www.pratley.com
Supplied outside South Africa by	Pratley Exporting (Proprietary) Ltd 14 Jackson Street, Fectoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 exports@pratley.com www.pratley.com

### 1.4 Emergency Telephone Number

South Africa    +27-11-955-2190 during office hours  
                                10117 All emergencies  
                                +27-21-689-5227 Poisons Information Centre

Europe 112 All emergencies

For detailed poison information, the national poison centre, if available, should be contacted.

United Kingdom 999 All emergencies

---

## SECTION 2 – HAZARDS IDENTIFICATION

---

### 2.1 Classification of the substance or mixture

#### 2.1.1 Classification

NOT CLASSIFIED AS HAZARDOUS.

#### 2.1.2 Additional Information

None known.

### 2.2 Label Elements

No Precautionary Statements are required on the label.

### 2.3 Other Hazards

Nuisance dust. Do not breathe dust. May cause mild skin, eye and respiratory system irritation. Wash thoroughly after handling. If irritation persists, seek medical advice.

---

## SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

---

### 3.2 Substances

Hazardous Ingredients	% [weight]	CAS No. EC No. Index No.	SCL, M-Factors, ATE	Classification	H / EUH Code(s)
Clinoptilolite	>90%	12173-10-3 687-562-6	-	Not hazardous	-

This material would also fall under CAS No. 1318-02-1 being a natural zeolite. The classification for this material is the same as for CAS No. 12173-10-3.

---

## SECTION 4 – FIRST AID MEASURES

---

### 4.1 Description of First Aid Measures

**SKIN** Wash contaminated skin with soap and water. Remove contaminated clothing and shoes and wash before reuse. If irritation persists, seek medical attention.

**EYE** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation persists.

**INHALATION** Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.

**INGESTION** Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Never give anything by mouth to an unconscious person.

### 4.2 Most important symptoms and effects, both acute and delayed

**SKIN** No known significant effect or critical hazards.

**EYE** No known significant effect or critical hazards. May cause mild irritation.

**INHALATION** No known significant effect or critical hazards. May cause respiratory irritation.

**INGESTION** No known significant effect or critical hazards.

---

## SECTION 5 – FIRE FIGHTING MEASURES

---

### 5.1 Extinguishing Media

**SUITABLE** Water fog, foam, extinguishing powder, or carbon dioxide.

**NOT SUITABLE** None known.

### 5.2 Special Hazards arising from the Substance or Mixture

**HAZARDS FROM THE SUBSTANCE / MIXTURE** Clinoptilolite (zeolite) is non-hazardous and may be allowed to enter a waterway, sewer or drain.

**HAZARDOUS THERMAL DECOMPOSITION PRODUCTS** None known.

### 5.3 Advice for Firefighters

**SPECIAL PRECAUTIONS FOR FIREFIGHTERS** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS** Fire-fighters should wear appropriate protective equipment to prevent inhalation of dust particles.

---

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering.

#### 6.1.1 For non-emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use a OSHA approved dust mask or self-contained breathing apparatus.

#### 6.1.2 For emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use an OSHA approved dust mask or self-contained breathing apparatus.

### 6.2 Environmental Precautions

Clinoptilolite (without other residues) is not a hazardous waste and may be combined with soil or drained to the sewage.

### 6.3 Method and material for containment and cleaning up

#### 6.3.1 Containment procedure

Sweep or vacuum up in such a way as to avoid dust.

#### 6.3.2 Clean-up procedure

Dispose of in accordance with local regulations.

#### 6.3.3 Additional Information

See SECTION 13 for disposal considerations.

### 6.4 Reference to other sections

See SECTION 13 for disposal considerations.

---

## SECTION 7 – HANDLING AND STORAGE

---

### 7.1 Precautions for Safe handling

#### 7.1.1 Recommendations for safe handling and storage

Do not eat, drink or smoke where this material is stored. Keep in the original container and keep tightly closed when not in use.

#### 7.1.2 Advice on general occupational hygiene

Put on appropriate personal protective equipment (see SECTION 8). Do not eat, drink, or smoke when working with this material. Wash hands and face before eating, drinking, or smoking. Do not get in eyes. Avoid skin contact as much as possible.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in the original container protected from sources of ignition or direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink. Keep container tightly closed and sealed until ready to use. Do not store in unlabelled containers.

Incompatible Materials: Strong oxidizing agents, concentrated acids

Packaging Material: Use original container.

### 7.3 Specific end use(s)

Not applicable.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

---

**SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION**

---

**8.1 Control Parameters**

The DNEL (Derived No-Effect Level) for humans by inhalation, ingestion and dermal routes of exposure and the PNEC (Predicted No-Effect Concentration) for environmental exposure given below are not intended to be directly used for setting workplace or general population exposure limits. Due to differences in calculation methodology the DNEL will tend to be lower (sometimes significantly) than any corresponding health based-OEL for that chemical substance. Further, although DNELs (and PNEC's) are an indication of setting risk measures, it should be recognized that these limits do not have the same regulatory application as officially endorsed government OELs.

No DNEL or PNEC information is available for Clinoptilolite / Zeolite.

Ingredient (CAS No.)	Route of exposure	Exposure Limit	
		ACGIH TLV	OSHA PEL
Nuisance dust	Inhalation	10mg/m <sup>3</sup> (inhalable particles)	5mg/m (respirable fraction) 15mg/m <sup>3</sup> (total dust)

**8.2 Exposure Controls****8.2.1 Appropriate engineering controls**

Ensure adequate ventilation. Provide local exhaust ventilation or other engineering controls if the potential for nuisance dust generation exists. If ventilation is poor use a self-contained breathing apparatus.

**8.2.2 Personal Protection**

**Skin** General purpose non-permeable gloves and overalls.

**Face / Eye** Avoid eye contact. Do not touch or rub eyes after contact with product. Wash hands thoroughly with soap and water first.

**Inhalation** Use an OSHA approved dust mask and work in a well-ventilated area.

**Ingestion** Wash hands thoroughly with soap and water after using this product. Keep away from children.

**Thermal** None required when used as instructed.

**Other** Always wash hands with soap and water after use.

**8.2.3 Environmental Protection**

Clinoptilolite (without other residues) is not a hazardous waste and may be combined with soil or drained to the sewage.

---

**SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

---

**9.1 information on physical and chemical properties**

Physical State	Small particles or chips
Colour	Beige / Pale green / Pale Pink
Odour	Not determined
Melting point / Freezing point (°C)	No data available.
Boiling point, initial and range (°C)	No data available.
Flammability	Not flammable.
Explosion / Flammability limits	No data available.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

Flash point (°C), closed cup	No data available.
Auto-ignition temperature (°C)	No data available.
Decomposition temperature (°C)	No data available.
pH	No data available.
Kinematic Viscosity (at 23°C)	Not applicable.
Solubility	Insoluble.
Partition co-efficient : n-octanol / water	No data available.
Vapour pressure	No data available.
Density and/or Relative density (at 23°C)	1.9 kg/L (0.95 kg/L as packed)
Relative Vapour density	No data available.
Particle characteristics	>95% between 8.0mm and 2.8mm by sieve analysis ≤0.3% over 8.0mm by sieve analysis ≤3% under 2.8mm by sieve analysis

## 9.2 Other information

### 9.2.1 Information with regards to physical Hazard Classes

No additional information available.

### 9.2.2 Other Safety Characteristics

No additional information available.

---

## SECTION 10 – STABILITY AND REACTIVITY

---

### 10.1 Reactivity

Unlikely to react under normal conditions of storage and use.

### 10.2 Chemical Stability

Stable under recommended storage conditions.

### 10.3 Possibility of Hazardous Reactions

Hazardous reactions are unlikely during normal conditions of storage and usage.

### 10.4 Conditions to Avoid

None known.

### 10.5 Incompatible Materials

Reactive or incompatible with the following materials: Strong oxidizing agents, concentrated acids

### 10.6 Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

**SECTION 11 – TOXOLOGICAL INFORMATION**

---

**11.1 Information on Hazard Classes**

No information available as ingredients not classified as hazardous. Based on human experience the material is a mild irritant.

**11.2 Information on Other Hazards****11.2.1 Endocrine Disrupting Properties**

Not listed as an endocrine disruptor on EDL List I (identified) List II (under evaluation for) or List III (has ED properties).

**11.2.2 Other Information**

No additional information available.

---

**SECTION 12 – ECOLOGICAL INFORMATION**

---

**12.1 Toxicity**

Not classified as hazardous.

Please see Section 8.1 for PNECs on individual ingredients.

**12.2 Persistence and Biodegradability**

No data available.

**12.3 Bioaccumulative Potential**

No data available.

**12.4 Mobility in Soil**

Not readily mobile in soil.

**12.5 Results of PBT and vPvB assessment**

No PBT or vPvB assessment has been carried out.

**12.6 Endocrine Disrupting Properties**

No data available. Not listed as an endocrine disruptor.

**12.7 Other Adverse Effects**

None known.

---

**SECTION 13 – DISPOSAL CONSIDERATIONS**

---

**13.1 Waste Treatment Methods**

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way.

Contain and dispose of in accordance with local regulations.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**EWC 01 04 08** WASTE RESULTING FROM EXPLORATION, MINING, QUARRYING, AND PHYSICAL AND CHEMICAL TREATMENT OF MINERALS: wastes from physical and chemical processing of non-metalliferous minerals; waste gravel and crushed rocks other than those mentioned in 01 04 07

---

## SECTION 14 – TRANSPORT INFORMATION

---

Since this product is NOT CLASSIFIED AS HAZARDOUS, there is no applicable UN Number (14.1), Proper Shipping Name (14.2), Transport Hazard Class (14.3) or Packing Group (14.4).

### 14.5 Environmental Hazards

Not classified as hazardous to the environment.

### 14.6 Special Precautions for User

None known.

### 14.7 Maritime Transport in Bulk According to IMO instruments

Not applicable.

---

## SECTION 15 – REGULATORY INFORMATION

---

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**REACH EC1907/2006 Annex XIII, XIV, XVII** The substance is not listed / not subject to restrictions.

**International Agency for Research on Cancer (IARC)** The substance is not listed / not subject to restrictions.

**Australia Inventory of Industrial Chemicals (AIIC)** The substance(s) is listed as 1318-02-1.

**New Zealand Inventory (NZIoC)** The substance(s) is listed as 1318-02-1.

**Canada Domestic Substances List (DSL) / Non-Domestic Substance List (NDSL)** This substance is listed as 1318-02-1 on the DSL.

**United States Inventory (TSCA 8b)** The substance(s) in this product are not listed / not subject to restrictions.

**California Proposition 65** The substance is not listed / not subject to restrictions.

**Consolidated List of Chemicals Subject to the Emergency Planning and Community Right-to-Know Act (EPCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and Section 112<sup>®</sup> of the Clean Air Act (CAA)** The substance is not listed / not subject to restrictions.

### 15.2 Chemical Safety Assessment

Not yet done.

---

## SECTION 16 – OTHER INFORMATION

---

Changes from previous version:

Date changed	Section	Changes
2022.06.07	1	Spelling correction of Nuclear.
2022.06.03	2, 3, 8, 11	Re-evaluated hazard after additional training and compliance with Regulation (EU) 2020/878.
	1	Confirmed emergency contact details. Product code 99094 is correct.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

	15	Confirmed regulatory information and added information for several regulations.
2019.01.14	1	Product code incorrectly recorded as 99094; should be 99049.
2017.07.08	14	Changed tariff code
2015.09.02		Initial document
